Supplier of Special Active Pharmaceutical Ingredients (GMP)

World Wide Shipping – Small quantities in GMP grade available
Medicapharma – Worldwide niche API Specialist

Strong Global Network

Partnering up with established Swiss and Asian companies, MedicaPharma began distributing special raw pharmaceutical materials (GMP) and has since established itself as a valuable partner in the global pharmaceutical specialty chemical supply chain. We partner with GMP manufacturers and specialty labs across the world to establish and maintain strong relationships that allow us to source the highest quality chemical products available. MedicaPharma works on a trust / transparency basis with our suppliers and customers that appeared to be the best combination in terms of building a long term cooperation.

Reliable And Transparent

We believe in doing things the right way – this means operating according to the GMP and GDP standards and supply our customers with chemicals in the highest purity grade possible. MedicaPharma starts where others stop; due to the fact that we built a very strong relationship with our + 400 GMP manufacturers through the years, MedicaPharma is capable of supplying you with the rarest and most niche pharma grade materials in small units. Whether we are talking about niche materials such as Carbachol, Thiotepe, Vorinostat, Isoprenaline sulphate or Mitomycine? We have it all. We do not repack or relabel, only original packages and documents are being supplied.

Products

Whether you need to have a material sourced, fully analyzed according to any monograph or any other activity, MedicaPharma offers it all.

MedicaPharma acts as global supplier for GMP grade raw pharmaceutical materials producers. The hereunder mentioned materials can potentially be sourced and supplied. Send us your inquiry and will serve you with our quotation soonest.
